Michael A. Mick - Manhattan Construction

Michael A. Mick, ASHE

Senior Project Manager, Manhattan Construction.

Originally from Indianapolis, Indiana, Michael started his career performing site concrete. Michael began his healthcare career as an employee in Facilities Design and Construction at Saint Francis Hospital Healthcare Centers.

After twenty years with Saint Francis Hospital, Michael spent ten years with Hunt Construction Group (now AECOM Hunt) continuing to manage healthcare, pharmaceutical and higher education construction projects.

Michael moved to Florida in 2007 working on the subcontractor side and the construction management side of our industry.

Michael has spent the last four years with Manhattan Construction managing projects in southwest Florida.

Michael is an active member of the American Society of Hospital Engineers and maintains his commercial general contracting license in the State of Florida.

His forty-five-year construction career has included work in Indianapolis, Bloomington, Houston, West Virgina, the Cayman Islands, Fort Myers and Naples.

Michael resides in Naples, Florida where he is a member of Saint Williams Catholic Parish, is a member of Stonebridge Country Club.

Michael has six children, fifteen grandchildren and five great grandchildren. He loves traveling to Indiana to visit family, friends and spend time on his farm in southeastern Indiana.

Bob Kramer-Skanska

Bob Kramer

Senior Vice President and Account Manager, Skanska

Bob Kramer serves as Senior Vice President and Account Manager at Skanska, leading the company's operations and client relationships in southwest Florida. With 24 years of construction management experience, Bob has been instrumental in delivering over $1.7 billion in healthcare work including two award-winning projects for Lee Health: Golisano Children's Hospital of Southwest Florida and the Lee Health, Gulf Coast Medical Center Expansion and Renovation.

Known for his strategic leadership and client-focused approach, Bob has cultivated strong partnerships with key stakeholders in southwest Florida's vibrant market. He has overseen numerous high-profile projects that have contributed to the area's growth and development including the current $600 million Lee Health, Fort Myers Campus project in Fort Myers and various multi-million-dollar education projects with Florida Gulf Coast University (FGCU), Florida Southwestern State College (FSW) and Lee County Schools.

Bob continues to strengthen Skanska's presence in southwest Florida, fostering long-term success and delivering impactful construction solutions that support the region's evolving needs.

Bob is a graduate of Purdue University with a B.S. in Construction Engineering and Management.
